Executive Summary

AI enthusiast with expertise in ML, DL, and Agentic AI tools, with a strong track record of delivering innovative, scalable, and results-driven solutions. Skilled at applying algorithms, data-driven insights, and creative problem-solving to develop intelligent systems that enhance efficiency and drive business value. Adept at collaborating across teams and contributing to strategic innovation initiatives with a focus on measurable impact and long-term growth.

Experience

MediaTrix Data Scientist / AI ML Engineer

FEB 2025 - SEPT 2025

Chennai, TN

- Created a posture correction web app using MediaPipe with real-time feedback and rep counting, improving tracking accuracy by 45%.
- Built an AI-based fitness recommendation system and chatbot, increasing user engagement by 50% and workout efficiency by 40%.

Ranger Technologies PVT Limited AI Engineer (Intern) [🔗](#)

Dec 2024 - Jan 2025

Tirunelveli, TN

- Built an AI model to analyze candidate emotions (facial, lexical, sound) and integrated it with an ATS, reducing manual evaluation by 40%.
- Improved HR decision-making accuracy by 35%, streamlining interview efficiency with AI-powered insights

BioPractify Data Scientist / AI Engineer (Intern) [🔗](#)

Nov 2024 - Dec 2024

Remote

- Developed a skin cancer classification model using HAM10000, performed molecular/protein docking and COVID & OMICS data analysis in Galaxy and Orange.
- Boosted classification accuracy by 30% and enhanced protein visualization efficiency by 25%, contributing to stronger bioinformatics research outcomes.

Projects

Nuvita AI [🔗](#) [Next.js, Clerk, Prisma and Shadcn UI]

- Built an AI-powered career guidance app offering personalized pathways, skill insights, resume & cover letter generation and future opportunities.

OmniFuse [🔗](#) [Next.js, Clerk, CodeRabbit and ArcJet]

- Built a multi-model AI SaaS application delivering scalable, intelligent solutions by integrating diverse AI models for enhanced business decision-making and automation.

Skills & Tools

- Programming Languages:** Python, C/C++, Java, R
- Backend & API Development:** Flask, Node.js, RESTful APIs
- Database Management:** MySQL, PostgreSQL, MongoDB, Vector Databases (Pinecone, Weaviate, Chroma)
- ML & DL:** TensorFlow, PyTorch, Scikit-Learn, Hugging Face Transformers, NLTK, SpaCy
- GenAI Libraries / Frameworks:** LangChain, LangGraph, LlamaIndex, LangSmith
- Containerization & Orchestration:** Docker, Kubernetes
- AI Domain:** Developing and optimizing SLMs and LLMs, RAG, NLP, Computer Vision, Multimodal Systems, MCP, Crew AI
- Version Control:** Git & GitHub
- Cloud Computing:** AWS, Azure, Google Cloud
- Data Science:** Pandas, NumPy, Matplotlib, Seaborn
- Workflow automation:** n8n, Airflow

Certifications

- NPTEL - The Joy of Computing using Python [🔗](#)
- NPTEL - Introduction to Large Language Models [🔗](#)
- Ranger Technologies Internship Certificate [🔗](#)
- Great Learning - Python for Machine learning [🔗](#)

Achievements

- BioHackathon (1st Prize - ₹10,000): Presented the R.E.B.E.C.C.A idea [🔗](#)
- Wit and Wisdom & TechWiz (1st Prize - ₹5,000 each): Presented the A.L.E.N.A project [🔗](#)

Education

Francis Xavier Engineering College CGPA (8.80 / 10)

SEP 2022 - APR 2026

B.Tech in Artificial Intelligence and Data Science with a Minor in Business Analytics
